
Found My Way

by Sean Snowden

I thought I lost it all
But on my way
I stumbled onto you

I'm grateful everyday
You're by my side
And I'm right next to you

I've been lost, but I'm found

(Chorus)

Standing here
All of these people
With wondering eyes
Wondering how we came to be
You and me
And the whole world to see
How far we're come
How hard we've tried
How much we've seen

I finally found my way

I can't stop watching you
From across the room
I wonder do you watch me too

Can't get that smile out of my head
Even if I try
I couldn't stop loving you

I've been lost, but I'm found

(Chorus)

Jump on in
What are you waiting for?

I've been lost, but I'm found

(Chorus)
